PROFESSIONAL SUMMARY

Results-driven **Software Developer** with **3+ years of hands-on experience** designing, developing, and deploying scalable **web and SaaS applications**. Skilled in **React.js, Node.js, Java, Express.js, and MongoDB**, with a strong foundation in **RESTful API design, microservices, and cloud-based deployments**. Experienced in **Agile SDLC, CI/CD automation, and Dockerized environments**, delivering secure, high-performance applications on **AWS, Vercel, and Render**. Recognized for producing clean, efficient, and maintainable code while aligning technology solutions with business goals.

TECHNICAL SKILLS

Front-End: React.js, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS
Back-End: Node.js, Express.js, Java, RESTful APIs, MVC Architecture
Databases: MongoDB, SQL Server, MySQL, Firebase Firestore
Cloud & DevOps: AWS, Vercel, Render, Docker, CI/CD, GitHub Actions
Version Control: Git, GitHub
Tools & Platforms: Postman, VS Code, Jira, Socket.IO, Firebase Authentication

---

PROFESSIONAL EXPERIENCE

Software Engineer
Veras LLC | Remote | Jun 2025 – Present

- Develop and enhance **SaaS-based web applications** using React.js, Node.js, and Java for secure, modular, and scalable architectures.
- Design and integrate **RESTful APIs and microservices**, optimizing data exchange and application performance.
- Automate builds and deployments through **Docker and AWS**, improving release reliability and reducing deployment time by 30%.
- Participate in **Agile sprints**, contributing to sprint planning, code reviews, and QA testing to ensure production-grade delivery.

Full Stack Developer (Business Systems & Reporting)
Disha Systems India Pvt. Ltd | Hyderabad, India | Sep 2020 – Jul 2023

- Designed and implemented enterprise **ERP modules and reporting dashboards** using React.js, Node.js, and MongoDB to streamline operations.
- Developed **REST APIs and data pipelines**, reducing data processing time by 35% and improving reporting accuracy.
- Built **custom SQL dashboards** and **Power BI reports** to deliver real-time business intelligence and analytics.
- Implemented **role-based authentication** and access control, ensuring security and compliance with data policies.
- Managed **Vercel deployments** achieving **99.9% uptime** and reducing manual release effort by 40%.

PROJECTS

HabitatHive – Real Estate CRM Platform (Team Lead)

- Led a **4-member team** to develop a **React.js + Firebase-based CRM** for real-time property, client, and transaction management.
- Configured **Firestore** for instant updates and **Firebase Authentication** for secure, role-based access control.
- Managed version control, CI/CD, and deployment using **GitHub** and **Vercel**, ensuring scalability and reliability.
- Oversaw sprint planning, code reviews, and testing cycles to deliver milestones on time and within scope.

Student Tracking System – Individual DBMS Project

- Designed and developed a **database-driven student management system** using **SQL Server** and **C#**.
- Created modules for attendance, grading, and performance analytics.
- Applied **normalization and indexing** to improve database performance and reporting efficiency.
- Generated **custom reports** for academic and administrative insights.

EDUCATION

Master of Science in Information Systems – *Indiana Institute of Technology*, Fort Wayne, IN   (Mar 2025)
Bachelor of Technology in Electronics & Communication Engineering – *J.B. Institute of Engineering & Technology*, Hyderabad, India   (Aug 2022)

STRENGTHS

- Strong analytical and problem-solving ability
- Effective collaboration in Agile cross-functional teams
- Commitment to clean, scalable, maintainable code
- Quick adaptability to modern technologies and frameworks
